Subject: RE: Letter of Intent - Draft 2

Hi Cindy,

Thank you for circulating another version of the LOI. Although we would have preferred to use our originally proposed language about the "agreement in principle" and approval by both Secretaries, we are okay with your new version provided we can add clarity regarding SB 990, along the lines of Steve's suggestion yesterday.

In addition, we recommend SB 990 be discussed first, as item 1, with the Boeing negotiation 2, because SB 990 is critical to the community groups entering into the LOI (I think flows better as well).

Thanks,  
James
