*Hello Mr. Rutherford,*

*Thank you for your continued engagement on the SSFL project. DTSC takes all comments received into consideration. In addition, DTSC provides responses to all questions received. Comments received that are not questions are acknowledged and considered, but DTSC does not typically provide responses to these.*

*You are correct that currently the STREAM platform does not show DTSCs responses to the general public – only the commenter/requestor. This design element preserves the public’s privacy in their thoughts, questions, and comments. However, we will take your suggestion into consideration.*

*Thank you,*
